ENGINEERING BULLETIN

Subject :	Release of new KWE series				
Released By:	SSN	Bulletin No.:	EB/15-16/12	Date:	8 th March, 16

We have officially launched new KWE series for water cooled flooded screw chillers. The selection software uploaded on AHRI server and AHRI directories is also updated. This series can now be seen on AHRI website.

Salient Features:

1. As mentioned above KWE is AHRI certified series.
2. This series shall be a standard chiller series and any customization, in terms of features and options, will not be available for this series.
3. Many standard features of the KWK series have been eliminated from this new series. The following features, that are otherwise standard for KWK series shall not be available in this series
 - o Graphic Touch Screen Display
 - o Electrical Isolation – such as MCCB or switch fuse disconnect, etc.
 - o Suction shut – off (Isolation) valve
4. This chiller series shall be available with heat exchanger nozzles suitable for Victaulic connections only and not flanged. Further, the price does not include cost of Victaulic couplings and connecting pipe stubs.
5. For incoming power supply, only fuse protection shall be provided.
6. Only options available for this series are flow switches and DP switches!
7. Standard TDS for this chiller series shall also be made available soon.
8. The following is the list of models available

KWI series models list:

KWE 100.14,	KWE 200.24,	KWE 350.24,
KWE 115.14,	KWE 230.24,	KWE 365.24,
KWE 135.14,	KWE 250.24,	KWE 380.24,
KWE 155.14,	KWE 270.24,	KWE 405.24,
KWE 175.14,	KWE 290.24,	KWE 420.24,
KWE 190.14,	KWE 310.24,	KWE 435.24,
KWE 210.14	KWE 330.24,	KWE 450.24,
KWE 225.14
