Software Release

Water cooled chiller
selection software-

Earlier version- 1.4.4

New version- 1.4.5

Air cooled chiller
selection software-

Earlier version- 1.4.1

New version- 1.4.5

No: EB/19-20/001,
23th July 2019

Dear Colleague,

We hereby wish to inform you the official release of new version of KCPL Water cooled Chiller Selection software, version 1.4.5

Changes in new Version:

1. New models with economizer added in KCM series-

Now, along with existing models in KCM series, new models with economizer are added in the software. These models are designated with 1 at the end of model name Viz. KCM301.14, KCM351.14, KCM401.14 and similar. Refer page 2 of 2 for more details.

2. New models added in KWI series-

Now, In KWI series for each compressor there are three models Viz. economic, optimum and efficient unlike earlier version where only one option was available. Refer page 2 of 2 for more details.

3. Common software version for water cooled and air cooled chiller selection

Based on AHRI guideline, now there will be a common software version for water cooled and air cooled chillers.

3. New model KAS035.14 introduced in air cooled series

4. Selection output format changed based on updated AHRI guidelines and other minor bugs in the software are removed.

Complete Model List of KWI-
