New program update
for Model –

KSC_XXX_1X -14.10.10

No: EB/20-21/005,
Date: 14th January 2021

Dear Colleague,

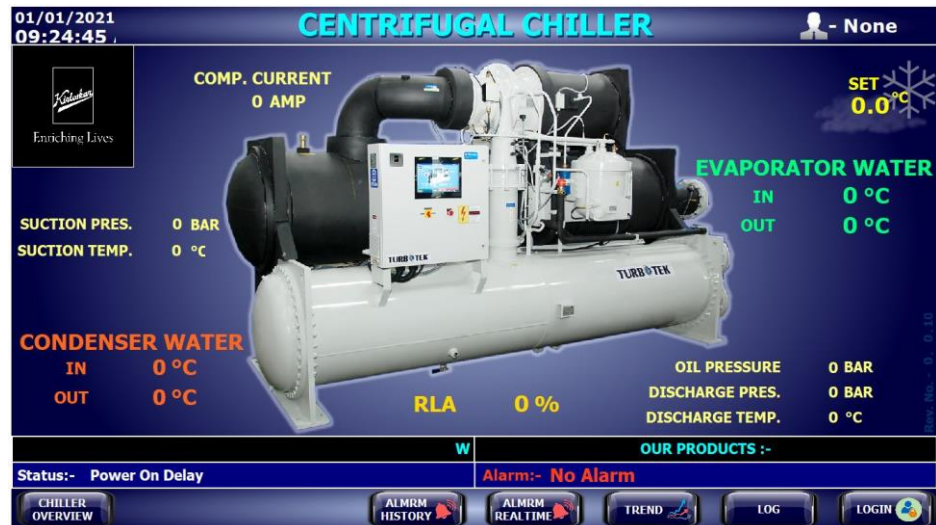

We hereby wish to inform you about the official release of new software version of KSC XXX 1X circuit chiller.

In this version we have introduced new 15” touch screen instead of 13” screen,

We have made some minor changes in software.

Find the below sample screen shot for new display...

➤ New touch screen (Display) as per show in below Fig.

Product Release

New software Version
for.

Model –
KSC_XXX_1X_14.10.10

- We have now separated the alarm in two typed viz. “Active Alarms” & “History Alarms”.
- Active alarms will show the present unacknowledged alarms.
- And History alarm will show the alarm history.

- Alarms will be now notified with “Alarm Bell” icon.
- Improved “Trend & Graphs” with new cursor option to see actual trend data, you only need to move cursor and the instant values will be shown for the below parameters.
