

ENGINEERING BULLETIN

Product Release

Software updates for
Rental Chiller.

Rev. - 13.13.13

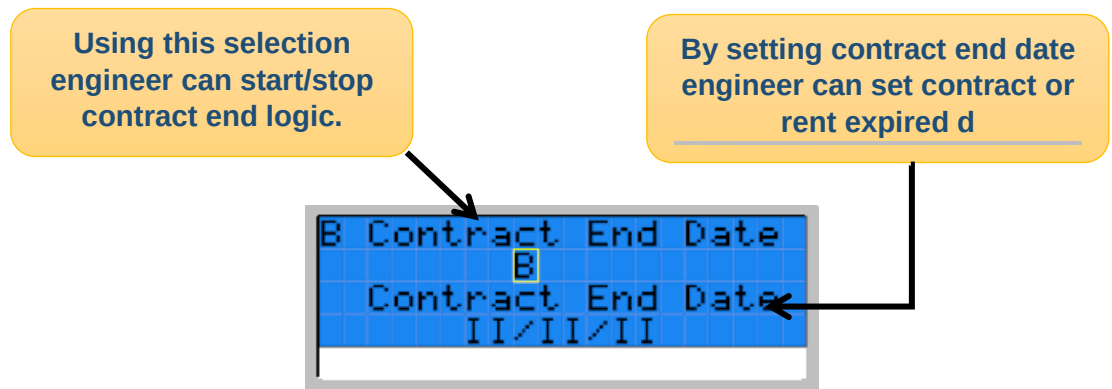

No: EB/21-22/02,
Date: 19th July 2021

Dear Colleague,

We hereby wish to inform you about the official release of new software revision for air-cooled rental chiller.

- ✓ Feature like “Contract End Reminder” is added.
- ✓ VFD parameters can be viewed on screen.
- ✓ Evaporators pump frequency setting for adjusting the desire flow can be done through controller.
- ✓ Some other required updates for smooth running of chiller.

“Contract End Reminder” feature will work as per below flow chart.

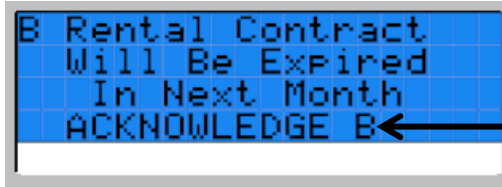

For Example, If we set the contract end date as 16/09/21 then the controller will start notifying the customer about the contract end date prior to one month before i.e. from date 16/08/21. Controller will give notification for customer as **“Rental Chiller Contract Will Expired in Next month”** as per shown in below image.
