Factory Fitted ATCS

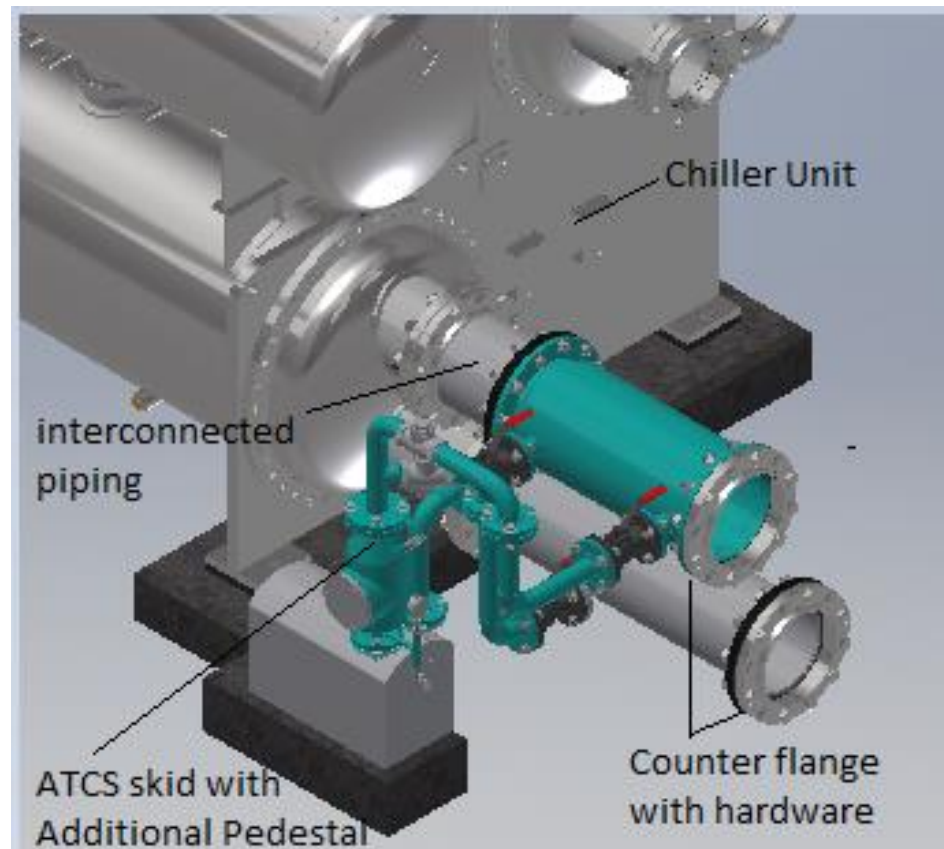

No: EB/22-23/005,
03/02/2023

Dear Colleague,

We hereby wish to inform you that we are adding 'Factory Fitted ATCS' solution to our offering

Description:

Currently ATCS is installed at site which requires piping modification & lot of work at site, also ATCS have separate control panel and electrically operated valves. To overcome these challenges we are designing Factory Fitted ATCS solution for individual chiller as illustrated:

Benefits of Factory fitted ATCS:

- This Highly Reliable ATCS solution will be offered as individual system for each chiller at affordable price.
- No Separate ATCS Control Panel required, will be hooked to Chiller Control Panel & will operate through chiller controller
- Simple Design with No Electrically Operated Valves
- No site installation cost & installation challenges at site, No welding work at site

Scope of supply:

1. Chiller Unit & ATCS skid with interconnecting piping
2. New battery limit will be ATCS flanges, we are considering Counter flanges with hardware in our scope
3. Customer need to provide additional foundation pedestal for ATCS mounting
4. Customer need to provide support to nozzle pipe spools based on space availability at site.
